Review table and chair composition, dimensions, materials, finish and spatial arrangement. Do not combine values from different options or infer missing ratings from the product image.

SELECTION & FIT

Selection Logic & Application Fit

Current product scope

Thickened Square-Tube Aluminum Alloy Frame: The frame is constructed as a single, seamless unit and finished with powder coating for outstanding rust resistance and corrosion protection.

Step	Selection input
01	Required seating and table capacity
02	Overall footprint and circulation route
03	Frame, surface and finish version
04	Exact pieces and fittings included in the set

Decision boundary

Confirm the exact model, stated technical fields, site relationship and expressly included configuration together. Omitted data is not replaced by an industry average or a nearby model.

STRUCTURE & CONFIGURATION

Configuration & Component Relationships

Woven Chair Shell

Dense dark-brown rattan forms the back and arms, giving firm support with a warm texture.

Grey Seat Cushion

The grey seat cushion spreads body pressure and complements the dark woven chair shell.

Grey Back Cushion

A separate grey cushion supports the back and can be removed for cleaning or dry storage.

Square Tube Frame

Black square tubing creates the chair's main load path and resists side-to-side movement.

Black Glass Top

The dark glass panel offers a durable, wipe-clean surface for drinks and small accessories.

Configuration boundary

Component names identify stated or visible product groups only. The exact installed version and inclusion of accessories are confirmed in the applicable order.

STRUCTURE

Structure Decomposition

This current-product structure view supports assembly recognition and configuration review. It is intended for product identification and option verification.

Selection significance

Confirm that the depicted assemblies and connection relationships match the exact model and ordered configuration. Do not infer hidden components or service steps from the image.
