SELECTION & FIT

Selection Logic & Application Fit

Current product scope

Featuring an eggshell-shaped design, with a generously curved backrest that provides multi-point support for the head, neck, lumbar region, and hips, delivering a snug, enveloping feel whether sitting or reclining.

Step	Selection input
01	Required seating and table capacity
02	Overall footprint and circulation route
03	Frame, surface and finish version
04	Exact pieces and fittings included in the set

Decision boundary

Confirm the exact model, stated technical fields, site relationship and expressly included configuration together. Omitted data is not replaced by an industry average or a nearby model.

STRUCTURE & CONFIGURATION

Configuration & Component Relationships

Woven Egg Chair Shell

A curved woven shell wraps the back and sides, then anchors securely to the chair support base.

Segmented Back Cushion

Contoured back padding softens lumbar contact and remains aligned with the woven structural support.

Round Seat Cushion

Removable seat cushioning spreads body weight evenly and allows practical cleaning during daily use.

Four Leg Support Frame

A braced chair frame directs occupant weight from the seat and back into stable floor contacts.

Seat Support Base

Seat-base structure fixes cushion geometry and transfers occupant weight into the main chair frame.

Configuration boundary

Component names identify stated or visible product groups only. The exact installed version and inclusion of accessories are confirmed in the applicable order.

STRUCTURE

Structure Decomposition

This current-product structure view supports assembly recognition and configuration review. It is intended for product identification and option verification.

Selection significance

Confirm that the depicted assemblies and connection relationships match the exact model and ordered configuration. Do not infer hidden components or service steps from the image.
