How to read this data

Review table and chair composition, dimensions, materials, finish and spatial arrangement. Do not combine values from different options or infer missing ratings from the product image.

SELECTION & FIT

Selection Logic & Application Fit

Current product scope

Reinforced metal rocker frame ensures even load distribution, smooth and gentle rocking, and features side-rollover and tip-over protection for safe, reliable use.

Step	Selection input
01	Required seating and table capacity
02	Overall footprint and circulation route
03	Frame, surface and finish version
04	Exact pieces and fittings included in the set

Decision boundary

Confirm the exact model, stated technical fields, site relationship and expressly included configuration together. Omitted data is not replaced by an industry average or a nearby model.

STRUCTURE & CONFIGURATION

Configuration & Component Relationships

Tufted Back Cushion

Contoured back padding softens lumbar contact and remains aligned with the woven structural support.

Tufted Seat Cushion

Removable seat cushioning spreads body weight evenly and allows practical cleaning during daily use.

Rocking Support Frame

The rocking support frame carries the cushioned seat and channels movement into both curved rails.

Left Rocker Rail

The left rocker rail defines the rocking arc and shares floor contact with the matching right rail.

Right Rocker Rail

The right rocker rail completes the rocking path and keeps lateral movement balanced during use.

Configuration boundary

Component names identify stated or visible product groups only. The exact installed version and inclusion of accessories are confirmed in the applicable order.

STRUCTURE

Structure Decomposition

This current-product structure view supports assembly recognition and configuration review. It is intended for product identification and option verification.

Selection significance

Confirm that the depicted assemblies and connection relationships match the exact model and ordered configuration. Do not infer hidden components or service steps from the image.
