Coverage principle

This card covers verified material or workmanship defects in the ordered sofa configuration, subject to the applicable order or contract and the conditions on page 2.

Warranty Coverage & Claim Process

Covered area	Coverage scope	Duration
Frame and fixed load-bearing structure	Material or workmanship defects in the ordered frame and fixed supporting structure.	As stated in the order/contract
Upholstery construction and fixed seams	Manufacturing defects in the ordered upholstery assembly and fixed seams, excluding normal wear and appearance change from use.	As stated in the order/contract
Recline or adjustment mechanism	The ordered manual or powered adjustment mechanism, only when included in the applicable configuration.	As stated in the order/contract
Electrical actuator and control components	Ordered electrical adjustment components only when present and expressly covered by the applicable terms.	As stated in the order/contract
Cushioning, surface finish and wear items	Covered only when expressly included in the applicable order or dedicated warranty terms.	As stated in the order/contract

Valid conditions

- The sofa matches the model and configuration recorded in the applicable order or contract.
- Use, placement and care follow the supplied instructions and normal indoor furniture practice.
- A claim includes the order record, defect description, photographs and requested supporting information.
- The product has not been altered by unauthorized persons or fitted with incompatible parts.

Exclusions

- Normal wear, gradual softening, surface patina, colour variation or appearance change from ordinary use.
- Damage caused by misuse, excessive load, impact, sharp objects, pets, unsuitable cleaning agents, moisture or heat.
- Damage caused by unauthorized alteration, improper placement, incompatible accessories or external events.
- Items outside the ordered configuration or outside the written order or contract terms.

Claim process

1. Stop using the affected function if continued use may enlarge the defect.
2. Record the model, order or contract number, date, defect location and clear photographs.
3. Submit the claim through the agreed sales or service contact.
4. Retain the product and affected parts until the assessment is complete.
