STRUCTURE & CONFIGURATION

Configuration & Component Relationships

Diamond-Tufted Shell Backrest Assembly

Shell-shaped backrest keeps the original deep diamond quilting, rounded contour, cream-white upholstery, and generous upper-body padding.

Padded Seat Cushion

Wide seat cushion preserves low, deep seating, a softly rounded front edge, cream-white texture, and stitched piping for daily support.

Paired Rounded Armrest Assembly

Matched padded armrests maintain balanced support, continuous curved profiles, and the chair's embracing shell silhouette.

Upholstered Lower Seat Shell

Visible lower shell supports the seat and retains the confirmed exterior side pocket and black manual recline handle in original positions.

Extendable Footrest Assembly

Front padded footrest extends through only the visible support bracket, providing leg support while preserving the confirmed connection logic.

Configuration boundary

Component names identify stated or visible product groups only. The exact installed version and inclusion of accessories are confirmed in the applicable order.
