

CARDIO EQUIPMENT

Stepper machine

Model S02

Technical Specifications & Product Selection

**220 V+10%/110 V+10%**

Power supply

560 x 235 x 220 mm

Step Size

1460 x 820 x 2080 mm

Overall dimensions

Product code: CAR25PJX004

Training type and capacity quantities

Powered treadmills, unpowered treadmills, ellipticals, rowers, steppers and ski trainers have different mechanisms. User load, speed, resistance, incline and running/pedal dimensions are separate quantities; motor power does not describe an unpowered version.

Start with the complete specifications on page 3. Review the actual configuration and supported options, then compare the product with the intended application.

CORE PRODUCT DATA

Technical specifications

Stepper machine / Model S02

Specification	Product data
Model	S02
Control screen	LED
Power supply	220 V+10%/110 V+10%
Speed	15-164 steps/M
Maximum user mass	160 kg
Adjustment levels	0-15
Step Size	560 x 235 x 220 mm
Console fields	LED,Time,Pulse,Calory,Dist
Overall dimensions	1460 x 820 x 2080 mm
Frame color	White
Custom color	No
Net machine mass	140 kg

CARDIO EQUIPMENT

Structure & configuration

Component / configuration	Function / scope
Console Display	Digital control panel provides workout data, training programs, and user feedback for convenient operation and exercise tracking.
Console Support Column	Vertical display support connects the console with the main frame, ensuring stable installation and reliable structure.
Side Handle Structure	Side support handles improve workout safety and stability while assisting users during climbing movements.
Main Frame Housing	Protective outer frame covers the internal structure and provides a durable foundation for the stair climbing system.
Step Platform Assembly	Multi-level stepping platforms simulate climbing movements, providing effective lower body training and secure foot placement.
Component groups	Handlebar Assembly; Front Support Base.

CARDIO EQUIPMENT

Application & product selection

Guided intervals with clear side access; Scheduled stepping for active daily breaks; Compact cardio in a dedicated home gym; Focused climbing beside a modern cardio zone.

Selection input	Review together
Training task	Exact exercise form and the stated user capacity.
Mechanism and display	Actual drive/resistance, console and adjustment version.
Space and supply	Product envelope, training clearance and stated power/connection needs.

Ordered configuration

Retain the exact model, specification option and included accessory scope in the written order.
Application photographs illustrate context, not inclusion of adjacent items.

CARDIO EQUIPMENT

Application context

Application settings show the product relationship to its surroundings.

Structural decomposition

Assembly relationships

The separated view identifies the product groups and their arrangement. Match the illustrated groups to the exact model and ordered configuration. This is a structural overview, not a dismantling or repair procedure.
